

FaBB

2.2 mg Folic Acid, 25 mg pyridoxine (Vitamin B-6), and 1 mg cyanocobalamin (Vitamin B-12)

Rx Only

Description:

FaBB is intended for oral administration.

Each Tablet Contains:

2.2 mg Folic Acid, 25 mg pyridoxine (Vitamin B-6), and 1 mg cyanocobalamin (Vitamin B-12)

Also Contains:

Dicalcium Phosphate, Microcrystalline Cellulose, Croscarmellose Sodium, Stearic Acid, Silica, Magnesium Stearate, Hydroxypropyl Methylcellulose, Polyethylene Glycol

Indication and Usage:

For dietary supplementation of folic acid and general nutritional support.

Contraindications:

This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

Precautions:

Folic acid in doses above 0.1 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations remain progressive.

Adverse Reactions:

Allergic sensitization following oral and parenteral administration of folic acid has been reported.

Pediatric Use:

Safety and effectiveness in pediatric patients have not been established.

Dosage and Administration:

Adults—one tablet daily or as directed by a physician.

How Supplied:

FaBB tablets are round, pink and film-coated. Each tablet is imprinted with "ML" on one side and "326" on the other.

FaBB tablets are available in bottles of 100 tablets (NDC# 68308-0326-10).

WARNING: KEEP THIS AND ALL MEDICATION OUT OF REACH OF CHILDREN

Dispense in tight, light-resistant container as defined in USP/NF with a child resistant closure.

Storage Conditions:

Store at controlled room temperature, 15°- 30°C (59°- 86°F). Protect from light and moisture.

Rx Only
